# Objectives

- **Professional Development**

- Influence the logistics learning continuum to produce logisticians who have the best opportunity for success in the contemporary and developing operational environments.

- **Knowledge**

- Create a useable body of knowledge and serve the logistics community as a 'virtual coach' whenever and wherever needed.

- **Organizations**

- Improve the effectiveness of organizations to achieve unity of effort in the delivery of logistics outcomes.

- **Leadership**

- Help ensure logisticians can effectively plan, organize & control logistics support to take advantage of the force multiplying effect of interdependent logistics capabilities across the national security enterprise.
