

ABOUT THE JOINT LOGISTICS COURSE

The JLC is a Joint Staff J4 sponsored course focused on preparing military and civilians to plan, execute, and control operational-level joint logistics in assignments involving joint logistics planning, interservice, multinational logistics support, and joint logistics in a theater of operations. To accomplish this, the JLC integrates component functional skills and knowledge through the study of strategy, doctrine, theory, programs, and processes. The JLC provides students the opportunity to develop the attributes, perspectives, and insights necessary to manage operational level logistics and challenge students to apply joint logistics doctrine in a Joint, Interagency, Intergovernmental, and/or Multinational (JIIM) context. The course CAPSTONE mission analysis exercise reinforces knowledge gained from skills acquired during the course, culminating in an IPR-A to a General Officer, Flag Officer, or Senior Executive Service. The course includes in person engagement and Microsoft Teams webinars from 18 guest lecturers from combatant commands and agencies.

The course is offered in two formats:

RESIDENT: two (2) week class hosted at Army Logistics University, Fort Gregg-Adams, Virginia

VIRTUAL: four (4) week hosted on Microsoft Teams.

Students should expect an average of three hours of self study outside of class, daily, and team collaboration for group projects.

This course awards 1.5 Joint Qualified Officer credits.
